

high tech ski & snowboard tuning tools

SKI
MAN

The background of the entire image is a dark, textured surface with a repeating woven or basketweave pattern. The pattern consists of interlocking horizontal and vertical lines, creating a grid-like appearance. In the upper center, the words "SKI" and "MAN" are stacked vertically in a white, outlined, sans-serif font. The letters are hollow, with the outlines being of medium thickness. The "SKI" is on the top line and "MAN" is on the bottom line, with a small gap between them.

MAN

high tech ski & snowboard tuning tools

research design

made
with
**HIGH
TECH**

Born in 1975, the SKI MAN trade-mark has become internationally known thanks to his high-tech and high-quality products for ski and snowboard hand tuning.

Our relationship with customers is not only based on business but on steady teamwork, which has brought us, in the course of years, to improve and widen our range of items. Testing by World Cup ski-men is an excellent chance to evaluate the effectiveness of our work. Items in this catalogue are for professionals or amateurs who want to prepare materials by themselves in order to improve their performances steadily. Quality has been and will always be the main aim of our factory.

BRAVO SHARP WORLD CUP

Electric side edge sharpener for fast and professional sharpening of side edges.

Thanks to its innovative design, side edges can be prepared with considerably less effort than with conventional manual devices, even if side edges are severely damaged.

SIDEWALL SHARP

- Ergonomic sidewall planer
- Easy handling, steady grip, maximum accuracy
- Best results, minimum effort
- Adjustable blade position and cutting depth
- Right and left hand use
- For ski and snowboard

SPORT
ACTIVE

RACING
TEAM

technical info The use of the sidewall planer is essential to remove excess of material which may compromise the file cutting and make it difficult to obtain the right angle. It is necessary to use this tool before filing, so that the file can make a precise work on the edges.

- sidewall: remove before filing
- titanium blade
- steel edge
- base
- ski or snowboard body
